### "Second Ty Cobb" Cause of New Fight of Federal League and Organized Baseball.

Benny Kauff, crack outfielder of the Brooklyn Federal League club, called often the "Second Ty Cobb," has been the cause of another stir in the baseball world, and his action in joining the New York Giants may lead to another legal fight between the new league and organized baseball. Kauff, who is one of the greatest ball players in the country, suddenly appeared at the Polo grounds, New York, Thursday, April 29, and was signed by John J. McGraw, manager of the Giants. He was sent out into the field for the game with the Boston Braves in place of Jim Thorpe, the Indian, who it was learned at the time had just been sold to the Jersey City club of the International League. George Stallings, manager of the Boston club, protested, and then called his men off the field.

"Kauff," said he, "is the property

of the Brooklyn Federal League club, and he has no right to play in the National League." The umpire ordered the Boston men to play, and on their refusal forfeited the game to the Giants. Later what McGraw called an exhibition game was played without Kauff in the line up. Robert B. Ward, chief financial backer of the Federal League and owner of the Brooklyn club, was at a white heat when he learned the Giants had signed Kauff. He declared war in these words: "Kauff has a contract with the Brooklyn club that is absolutely binding for the next three years. If the Giants believe otherwise we will fight them to the last ditch. If the Giants or any other club in organized baseball want war they will get it. If the Kauff matter can be construed as a call to arms organized baseball will regret that they ever sounded the call. We will get out and take players who have iron-clad contracts with clubs in the National and American leagues and will fight to the limit to retain them."

### GALLANT DOCTOR DEFENDS GIRLS WITH BIG FEET

TELLS DANGERS OF "TINY TOOTSIES"; ADVOCATES COMMON SENSE

Pittsburgh, Pa., May 5.—Once upon a time, when Prince Charming was the puzzled possessor of a diminutive shoe—or slipper—divers would be Princesses were at great pains to crowd their pedal extremities into that slipper. In these changing days, however, the possessor of a Cinderella-foot can only hide that one-time prize, while her step-sisters of the angular feet find that those whom curses have now become a mark of caste. Such, at least, would seem to be the case from a proceeding in the Carnegie Institute Teachers' room last night, during a lecture by Dr. M. W. Kurniker on "High Heels versus Health," before the sections of hygienics and pictorial art of the Academy of Science and Art.

There were "some" dainty feet in the feminine contingent that formed one-fourth of the audience and some of the larger kind. As Dr. Kurniker eloquently plead his case against French heels and modified examples of that creation, the same owners chopped their up-to-date modified skirts lower and lower to cover up what was fast becoming incriminating evidence, while other owners just as steadily pushed forward comfortable-looking, if not altogether large, feet with evident traces of satisfaction.

When Dr. Kurniker brought forth an entrancing French dancing pump with a three-inch heel, and a sedate and almost flat shoe, which he proceeded to pass out into the audience, as contrasting illustrations of his talk, the entrancing little slipper was passed by, while feminine effusions over the grace and common sense of the sedate article gushed forth. With the foot bones of a skeleton and examples of extreme shoes Dr. Kurniker illustrated his points. He told, and showed with chalk drawings, how high heels cause nervous prostration, and traced headaches, back aches and other ills to this cause. In opening, he aptly showed the relation of shoes to the history of a country, to the character of its people.

**Danger to Children.**  
Serious illnesses often result from lingering coughs and colds. The hacking and coughing and disturbed sleep rack a child's body and the poisons weaken the system, so that disease cannot be thrown off. Foley's Honey and Tar Compound has eased coughs, colds and croup for three generations; safe to use and quick to act. There is no better medicine for croup, coughs and colds. Sold everywhere.

Sun Gold for lightbread, biscuits, pies and pastries.

pony, backed by its independent army of investors and its already big property, and splendid business is winding out in spite of everything and everybody. People, especially in Kansas and neighboring states where the Red, White and Blue tank wagons and automobile trucks can be seen daily delivering to the people good oil at reasonable prices, in competition with the rich Oil Monopoly, are among the citizens who are buying up the stock left in the Treasury for sale.

The Uncle Sam Oil Company during the past five months has completed eighty miles of additional pipe line connecting nearly all of its big properties with two of its refineries in two states and has added one substantial block of leases on Hatch Creek in Pawnee County, Oklahoma, and has just drilled a very important test well there. It now has a completed pipe line through the oil fields for 150 miles.

The company has three big leases in Pawnee County, a part of which are right in line with the great Boston Oil Pool in Osage County on the north and the big Cushing aquifers in Creek County on the south. A part of one of our great leases is only seven miles from a 1,200-barrel well drilled in a few days in the north end of the Cushing field. It is the determination of the organizers and stockholders of The Uncle Sam Oil Company to get control of at least one million acres of oil and gas leases in the rich Oklahoma oil fields, and it is demanding that this great Osage lease, that has been proven in the Federal Court was honorably secured, and is validated either by the Secretary of the Interior or by Congress with a provision written in the lease that shall authorize the Uncle Sam Oil Company to purchase to fix the price for which the oil and gas from this big Government Indian Lease shall be sold to the people.

The Oil Trust crowd seeks through their corrupt and secret methods to double large sums by Presidential Campaigns and other big-time officials and to secure this great Osage Lease, the richest plum in the entire Oil World, delivered to the Oil and Gas Monopoly without this provision to protect the general public written in the lease. Then the Oil and Gas Monopoly can make \$200,000,000 of the profits of the Missouri Valley. But the people are watching the secret Oil Trust monster that still seeks to control the Government and then steal from the public by its dishonest prices.

There is a new day dawning and The Uncle Sam Oil Company is winning, and the Oil Trust crowd is losing. The Uncle Sam Oil Company is now in the hands of the people and is driving ahead all along the line. You have read the advertisements of this Company in this paper during the past sixty days and this is to notify you that this is your last chance to secure the stock at the old price. Every remittance not started to the Company on the old price or before MONDAY, MAY 24th, will be returned to you. The stock still left in the Treasury will be advanced in price FIFTY PER CENT. Other advances are sure to follow. The Company is gaining and it is bound to go ahead and succeed on its dignified basis.

If you want to get into a proposition that has every indication of phenomenal financial success, and in a few years increase in value from twenty to fifty times, or possibly a hundred times, at least your share of profit payable to The Uncle Sam Oil Company under the special offer that follows. OIL WHITE QUICK FORTY-FOUR HOUR ADVANCEMENT. AN INVESTMENT FOR A MONDAY, MAY 24TH, this stock will cost

you FIFTY PER CENT more if you are able to get it at all. Time will be money to you in this transaction, and let the Company bear from you forthwith. We value our combined properties, including uncompleted pipe line and established trade and trade name at Four Million Dollars. There is a provision in the charter that protects the Company from Oil Trust control. Any month a new well may open a great oil pool that in drilling other wells can soon pour out millions and make the large stockholders rich. One of our big leases in Pawnee County we have one of the deepest producing wells in that district. It is 2,812 feet deep. In a short time a few days last fall this well filled up and flowed out over the top. The next location around this deep well, over one-half mile deep may be a five to ten thousand barrel well. There are very few opportunities left where the moderate investor can invest a few hundred or a few thousand dollars and secure a real bargain investment opportunity. This stock should now sell for FIVE CENTS per share. It is OFFERED at a bargain investment offer to raise new capital quick as our Company can take advantage of the many opportunities in the oil fields along our completed pipe line. We can increase our production several times without increasing our general expenses over ten percent.

The stock is non-assessable, and the cash so invested, together with your agreement to remain loyal to the company, is accepted by the Company as full payment. If the Company advances you as a stockholder, it wants none but loyal, patriotic, thrifty-loving citizens, as its stockholders, and therefore reserves the right to approve or reject any subscription in its stock. If you should not be approved your money will be promptly returned to you. If you are approved, your stock will be issued full paid in consideration of your payment and your agreement to remain loyal to the Company, which agreement is contained in the certificate of stock. Special offer is four times the special offer to you, as follows:

### BIG PRICE IS REFUSED FOR FORTY ACRES

(By Associated Press.)

Oklahoma City, May 4.—Failure to sign a journal entry in Oklahoma county's largest tax case which did not provide for any kind of appeal and saved no exception may cost the county \$100,000 or equivalent. The error that may prove so costly was made public today when County Attorney John Embury asked the court to modify the journal entries that an answer, exception or appeal may be made a matter of record. His motion was resisted by attorneys representing big property owners whose property under judgment would escape taxation. One county official said the amount of money involved would reach \$125,000 which the county would lose under the decision. The taxes for four years, 1910-14 are involved. There are more than a dozen big property owners in the suit.
